Is an inspection required to receive House Charlotte funds? **Note: Properties being sold “As-Is” are not eligible for the House Charlotte Program.**

Yes, all existing properties must pass a House Charlotte inspection prior to receiving funds. Please see the *Inspection Guidelines* on our website for full inspections details. There are two inspection options;

- Option 1-The City of Charlotte will pay for the initial code inspection along with one additional re-inspection.
- Option 2- Buyer(s) have the option, at the buyer’s cost, to hire an independent, licensed NC Home Inspector. However, this Inspector must complete the House Charlotte Minimum Housing Code form along with their normal inspection form. Both should be forwarded to House Charlotte upon completion for review.

Please note that borrowers should use caution in relying solely on the House Charlotte inspection. The House Charlotte inspection generally covers code and safety violations. Therefore, we highly recommend that borrowers hire their own Inspector to complete a full structural/mechanical home inspection in addition to the House Charlotte inspection.

*Note: For new construction homes less than 6 months old, a Certificate of Occupancy (CO) is required.

Who can request the House Charlotte home inspection?

The inspection can be requested by the Realtor, the Lender or the buyer.
